

DIFFUSION / GRILLES

UNIVENT "PLUS"

Discover the opportunity that **UniVent PLUS** will give you to complete a job quicker and leave it looking better. The experienced Westaflex engineers have designed a diffuser that not only works better, but is easier to work with.

The curved louvres that direct air flow are now inside the vent eliminating the blades protruding from the ceiling. The smooth finish of the High Impact Polystyrene plastic also helps reduce noise that can sometimes be transmitted through your ducted system.

The smooth curve of the outside flange matches the louvres giving an attractive and unobtrusive finish to the **Univent PLUS** that will suit most homes and businesses.

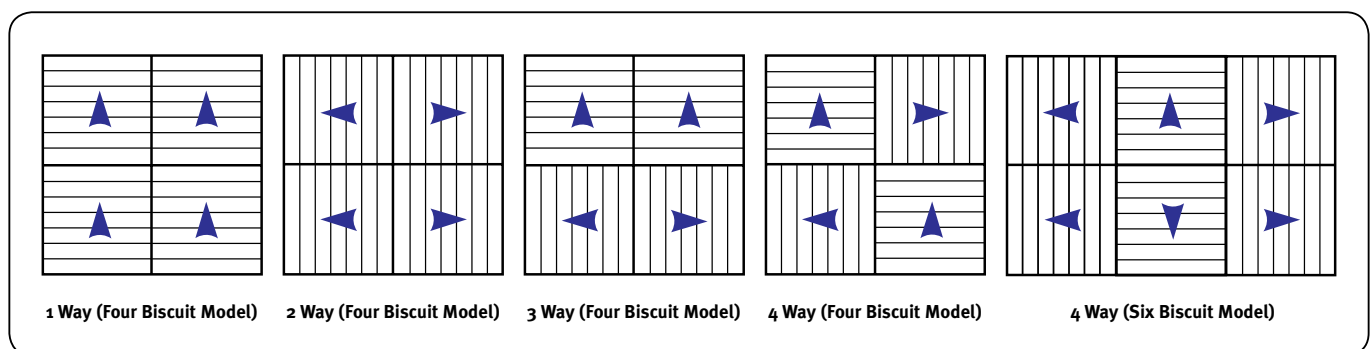

The **Univent PLUS** installs easily by simply snapping the duct adaptor onto the back of the grille, then with light pressure push the **Univent PLUS** into the pre-cut hole in the ceiling and let the "snap down" clips lock the diffuser into place, holding the **Univent PLUS** firm and flush along the ceiling line.

Features of the Univent "PLUS" include:

- Light weight, durable, rust free, colour fast material
- Snap on adaptor with optional damper
- Minimises the effects of cold bridging (condensation)
- Easy selection and setting of air flow using each assembly to direct air where you want it
- Models to fit high demand outlet sizes

PRODUCT CODE	SIZE (neck)	DESCRIPTION	PRICE
72340909	9x9 (225x225)	Univent PLUS with snapdown clips	
72341212	12x12 (300x300)	Univent PLUS with snapdown clips	
72341515	15x15 (375x375)	Univent PLUS with snapdown clips	
72341522	15x22 (375x550)	Univent PLUS with snapdown clips
